DATA SHEET

BULLET RESISTANT SLIDING WINDOW
USAW 100

- The USAW 100 Window Series is a sliding ballistic window with single or multiple fixed lights with a variety of models and designs to choose from. The USAW 100 is shipped factory assembled and fully glazed, ready for installation.
- All windows are custom made to suit end-user's specific size requirements. (Shop drawings are included and are provided for approval prior to fabrication).
- The extrusions allow for the insertion of armor consistent with specified threat level. UL 752 Level 1 - 3 in an all-aluminum frame system, reinforced with steel armor inserts. Complimentary door and window construction allows for aesthetically uniform security application that is available in many style and finish options.
- Frame Size: 4-1/2".
- Windows can be fitted with a wide range of hardware options.
- Glass components are easily replaceable.
- Standard finish: Clear or bronze anodized (custom Kynar paint).

PROTECTION, TESTING & STANDARDS

- **Ballistics:** UL 752 Levels 1-3.

It is recommended that the window system be used in conjunction with protected wall and door areas. Each end user should determine the ballistic and forced entry threat level to ensure the correct product selection to meet and exceed security needs.
